VELUX®

Skylights

about us

VELUX has a long history of leading the window industry. As early as 1945, Villum Kann Rasmussen invented and patented the pivot-hinge, and thus the goal of “making a skylight which in every respect was just as good as the best vertical window” had moved a long way toward fulfillment.

The VELUX deck mounted product family is now designated the No Leak Skylight. It carries the new 10-year no leak installation warranty plus 20 years on glass, 10 years on skylights, and five years on blinds and controls; all of which are fully transferable.

Features include:

- Three layers of water protection
- Advanced LoE3 glass for better energy efficiency
- Improved solar heat gain performance
- Money saving pre-finished white frames
- Pre-mounted brackets for quick installation of sunscreen blinds
- Lower roof profile with an updated curved architectural design
- Neutral gray color, preferred by consumers and builders

The No Leak Skylight™

Features & Benefits

3 layers of water protection

1. The pre-attached deck seal on all deck mounted skylights provides a seal between the frame and roof deck for leak-proof installation.
2. Adhesive underlayment for secondary water protection against the harshest weather conditions.
3. Engineered flashing for easy installation and primary water protection.

description: Advanced LoE3 coating provides more daylight and better heat control for year-round comfort and energy savings.

description: Pre-mounted **Pick&Click!**™ system brackets make the installation of sunscreen blinds a snap.
